

Non-compatibility of selected Huawei brand Android phones with EU Login mobile app

US law currently allows Google to work only with Huawei on device models available to the public on or before May 16, 2019. Because of this ban, their Android phones manufactures after this date, do not have Google Play services including Google Play Store. Therefore, as EU Login mobile app for Android is available exclusively via Google Play Store, on these phone models (as well as their successors) the EU Login mobile app will not be available:

- Huawei P40
- Huawei P40 Lite
- Huawei P40 Pro
- Huawei Mate 30 series
- Huawei Mate Xs
- Honor 30 series

In addition, European Commission continues refraining from supporting EU Login mobile app on any rooted or jailbroken device.

The Huawei phone models, which are still compatible with Google Play services, and therefore will continue supporting EU Login mobile app are the following:

- P30 Pro
- P30 Huawei
- Mate 20 Huawei
- Mate 20 Pro
- Mate 20 RS
- P30 lite
- P smart 2019
- P smart+ 2019
- P smart Z
- Mate 20 X
- Mate 20 X 5G
- P20 Pro
- P20
- Mate 10 Pro
- Porsche Design Mate 10
- Mate 10
- Mate 20 Lite
- Honor 8X
- Honor 10
- Honor 20
- Honor 20i/20 Lite
- Honor 20 Pro

European Commission does not publish the EU Login mobile app in Huawei's app gallery (Huawei's own Google Play store replacement).

European Commission follows the compatibility of all Huawei devices with current version of Android (higher than 6.0 /SDK 23/), and will alert its users on possible further incompatibilities. Please be cautious when you plan to use your Huawei device for connecting to EC applications using EU Login mobile app as the support offered by Google to Huawei is uncertain.
